Thanks for the update. Sounds like a pretty straightforward call.

Subject: Today Call with Powertech

Hi Sarah: there were no surprises on today's call with John and Blake.

As we expected, they did ask about the distances we determined for delineated AEs for the ISR wellfields and why we didn't exempt wellfields 6, 7, and 8 at this time. We explained our thinking consistent with what we had documented in the AE ROD and RTC. We also told them what further delineation drilling, etc. would have to be done should they decide to formally request an expansion of what was exempted or to add these three remaining wellfields, and that we would need to go out for public comment again before any further AE decisions were made.

They also ask about the timing of the appeals process. For the permits, we reminded them that the 30 days would come due on 12/24/20, but that its possible someone may request that the EAB extend the time for filing appeals beyond this date. We also told them that the deadline for appeal of our AE decision was January 22nd (as noted on our website).

Douglas
